FOR IMMEDIATE RELEASE

On June 3rd, two children were involved in an accident on Red Bud Trail within the City of Hays in which a golf cart that they were driving flipped over and pinned one child underneath it.

Fortunately, former Mayor Harvey Davis happened upon the scene, helped the children get out from under the golf cart, and contacted emergency services for further assistance. The City thanks Mayor Davis for his quick thinking and aid to the children.

With this incident and unfortunate recent accidents involving similar vehicles in nearby communities, the City of Hays reminds the community that golf carts cannot be operated on City streets. In order to protect the health and safety of the community and particularly its children, the City will work with local law enforcement to enforce this important public safety requirement.
